

From "Join The Circle"

IT WAS A DREAM

music and lyrics by Elaine Serling (ASCAP)

verse

Think of this land, it's old its new
Where our people can be free
It's the home for every wandering Jew
After many centuries

We've built it up, yes, hand in hand
We're a nation full of pride
And there's no doubt in anyone's mind
Our country will survive

chorus

It was a dream, now reality
The struggles that we share
It was a long time growing
Join hands, my friends, we're there

It was a dream, now reality
I can feel it everywhere
Far and wide it's coming
Join hands, my friend's, we're there

verse

From the southern tip of the Negev
To the north green Galilee
Our voices rise together
We strive for harmony

Listen to the children's laughter
They send a message loud and clear
Stand tall, be strong, remember
Celebrate year to year

chorus (X2)

It was a dream, now reality
The struggles that we share
It was a long time growing
Join hands, my friends, we're there

ending-

Join hands, my friends we're there(x3)
